SKILLS

- **Languages:** Python, C++, C, JavaScript
- **Frameworks & Libraries** React, Node.js, Express.js, Flask, Pandas, NumPy, Scikit-learn, Mongoose, Bootstrap, Axios
- **Tools & Platforms:** MongoDB, MySQL, Docker, Kubernetes, Git, Power BI, Excel, HTML, CSS
- **Soft Skills:** Leadership, Communication, Teamwork, Adaptability, Problem-solving

INTERNSHIP

Software Engineer Intern – Zerone Consulting | Certificate

Jun' 25 – Aug' 25

- Developed a full-stack hotel reservation analytics platform using React and Node.js, building 10+ dynamic UI components and managing 1,500+ booking records through optimized backend services.
- Trained and deployed machine learning models in Python to predict booking trends, integrating them with the Node.js backend via REST APIs to enable real-time predictions with ~85% model accuracy.

Tech stack: React, Node.js, Express.js, MongoDB, Python, Scikit-learn, Flask, HTML, CSS, Docker.

PROJECTS

Roommate / PG Matching System | Full-Stack Web Application | GitHub | LiveLink

Jan' 26 – Present

- Designed and developed a full-stack roommate and PG matching platform, building 12+ responsive React components to enable user registration, profile creation, and filtered property search based on budget and location.
- Developed 10+ RESTful APIs using Node.js and Express, structured MongoDB collections with Mongoose, and handled 400+ user and listing records with efficient CRUD operations.
- Implemented JWT-based authentication, protected routes, and form validation to ensure secure user access and reliable data management across the application.

Tech stack: React, Node.js, Express.js, MongoDB, Mongoose, HTML, CSS, Bootstrap, Javascript

FilmNest | Movie Discovery Web App | GitHub | LiveLink

Nov' 25 – Jan' 26

- Developed a full-stack movie discovery web application integrating multiple APIs to fetch real-time data on movies, ratings, and trending content, enhancing user experience with dynamic search and recommendations
- Built a responsive and interactive UI using React, optimizing component structure and state management to reduce load time and ensure seamless navigation across devices.
- Integrated and managed 3+ REST APIs with efficient error handling and data fetching, enabling users to explore a wide range of content with filtering based on genre, ratings, and popularity.

Tech stack: React.js, JavaScript, REST APIs, CSS, Axios.

Kozhikode – City of Love | Tourism & Cultural Web Project | GitHub | LiveLink

May' 25 – Jul' 25

- Designed and developed a responsive web application showcasing Kozhikode's cultural heritage, tourist attractions, and local cuisine, building 15+ interactive UI sections for enhanced user engagement.
- Implemented dynamic content rendering and structured data presentation to highlight key attractions, beaches, and historical landmarks, improving user navigation efficiency by 30%.
- Optimized performance and mobile responsiveness to support 500+ simulated users, ensuring smooth browsing across devices..

Tech stack: HTML, CSS, Bootstrap, Javascript

TRAINING

Cipher Schools – CPP with OOPs Programming Language | Certificate

Jun' 25 – Aug' 25

- Applied core Object-Oriented Programming (OOP) principles in C++ including encapsulation, inheritance, polymorphism, and abstraction to develop modular and scalable applications.
- Implemented file handling, exception handling, constructors/destructors, and utilized STL (Standard Template Library) for efficient data management and problem-solving.

CERTIFICATES

- Microservices Architecture And Implementation | IBM | [Link](#) Oct' 25
- Google Data Analytics Specialization | Coursera | [Link](#) Sep' 25
- Responsive Web Design | Free Code Camp | [Link](#) Nov' 23

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.81**

Phagwara, Punjab

Aug' 23 – Present

St. Antony's Public School

Intermediate; **Percentage: 71.2%**

Anakkal, Kerala

Jun' 20 – Apr' 22

Sobhana Public School

Matriculation; **Percentage: 90.3%**

Kothamangalam, Kerala

Jun' 19 - Apr' 20
